RE: Preconstruction Stormwater Training for MS4 areas in Benton County

Dear Contractors:

Benton County Planning and Environmental is reaching out to all contractors operating within an ADEQ-designated MS4 area to notify you how to obtain a Preconstruction Stormwater Certificate from Benton County Planning & Environmental Services. We are striving to be consistent with other MS4 areas in Northwest Arkansas and aim to promote awareness of construction site requirements and Best Management Practices (BMP) in a MS4.

To facilitate this process, the Planning office is offering a brief 10 minute PowerPoint presentation on Construction Stormwater BMPs. Subsequently, the contractors may take a 10 question quiz. The entire process typically takes less than 30 minutes and contractors receive a certificate of completion after the quiz. The certificate is provided to all participants with a minimum score of 80% and is valid for three years from the date of issuance.

You may contact the Planning office to schedule a time to take the training in our offices or visit the link to take the quiz: <http://www.surveymonkey.com/s/HHXHT7L>

For more information or to schedule a training appointment, please contact Benton County Planning and Environmental at 479-271-1003.

Sincerely,

Rinkey Singh, AICP
Planning Division Manager
