NATIONWIDE PERMIT NO. 2013-00115

Mr. Gary Davis  
Davis Engineering  
6487 W. Wedington  
Fayetteville, Arkansas 72704

Dear Mr. David:

Please refer to your information dated March 22, 2013, on behalf of William B. Anderson, concerning Department of the Army permit requirements pursuant to Section 404 of the Clean Water Act. You requested authorization to place 2 - 36" culverts in Bear Creek to construct a driveway. The project is located Section 11, T. 19 N., R. 29 W., Rogers, Benton County, Arkansas.

The proposed activity is authorized by Department of the Army Nationwide Permit (NWP) No. 14 (copy enclosed), provided that the conditions therein, are met. You should become familiar with the conditions and maintain a copy of the permit at the worksite for ready reference. If changes are proposed in the design or location of the facilities, you should submit revised plans to this office for approval before construction of the change begins.

Please refer to NWP Condition No. 12, which stipulates that appropriate erosion and siltation controls be used during construction and all exposed soil be permanently stabilized. Erosion control measures must be implemented during and after construction of the proposed project to comply with this permit condition.

In order to fully comply with the conditions of the NWP, you must submit the enclosed compliance certification within 30 days of completion of the project. This is required pursuant to General Condition No. 30 of the permit.

The NWP determination will be valid for two years unless the NWP is modified, suspended, or revoked within the two-year period. If NWP No. 14 is modified, suspended, or revoked during this period, your project may not be authorized unless you have begun or are under contract to begin the project. If work has started or the work is under contract, you would then have twelve months to complete the work.

This permit does not authorize placement of fill material for bank extension riverward or for alignment with the adjoining property and does not grant any property rights or exclusive privileges.

The authorization of this work by a NWP does not relieve you of complying with other applicable local, state, and Federal laws.

If you have any questions about this permit or any of its provisions, please contact me at (479) 636-1210, ext. 1389 and refer to Permit No. **2013-00115**.

Sincerely,

Debra Woodward  
Project Manager
