February 5, 2014

Benton County Planning Board,

The Hickory Creek Volunteer Fire Department is requesting that the Benton County Planning Board approve the Telecommunications tower that is being proposed to be built on East Highway 264. The location planned will vastly approve not only telecommunications but our fire department radio communications system repeaters and antennas will be moved to this location upon completion of the build.

Thanks for your attention in this matter!

Regards,

Eric Smith – Assistant Fire Chief
