### **More Information**

“Benton County has been a great partner to the Department of Finance and Administration, and we look forward to continuing our work together in the new location,” said **Scott Hardin, spokesperson for the Arkansas Department of Finance and Administration**. “The Revenue Offices in northwest Arkansas are normally our busiest in the state. This impressive new facility will allow us to better serve Arkansans, and also allows for growth as northwest Arkansas continues to flourish.”

“We’re very excited about this move. Due to the size of our office we’ve needed to have our main personal property, real estate, and GIS/mapping departments working at the downtown Bentonville location, our personal property satellite location in Rogers, and

our appraisal department over at the West Walnut location,” said **Benton County Assessor Roderick Grieve**. “This move will allow our entire staff to operate under one roof which will increase efficiency and allow us to better serve the public. This move will also provide increased parking, not only for our staff but for the public as well.”

“Due to the needs and growth of Benton County, our office has outgrown the current space. The move to Rogers will provide more space for our staff, more parking for the public, and room to grow,” said **Benton County Collector Gloria Peterson**. “We look forward to continuing the same level of customer-service to the public at our new location.”

“The County Clerk’s Satellite Office has enjoyed the Rogers Offices location for the last five years, and we welcome the other departments who are now going to be joining us there,” said **Benton County Clerk Betsy Harrell**.
